

**Orak Restaurant R5** is a comprehensive restaurant POS system, developed in order to meet the needs of all types of restaurants: full service restaurants, cafés, pizzerias, fast-food restaurants, bars, caterings etc.

**Orak Restaurant R5** provides the owners of restaurant chains with the opportunity for overall management of all units from the chain.

The software allows management and tracking of orders, generating accurate reports and control over costs in order in order to achieve increased efficiency.

Cost control, recipe costing, lower waste, tracking of stock - all these features help restaurant owners to manage their business with ease while maximizing profit.

What do you need to start? We provide you with a complete system, Android ([ORAK R6](#)) or iOS ([ORAK R7](#)), a printer, a receipt printer, a credit card / vif reader, and a barcode scanner. All you need to do is fill in the [Contact Form](#), and we will carry you!
